

## Science/ Design Technology

This term Year 5 will be transfixed to the stars as we explore the wonders of our Solar System. Science will be based around the origins, processes and potential future of our planet.

### Literacy

Children will be reading and writing a variety of texts this term. Commencing with Flashbacks (based on Harry Potter and the Philosopher's Stone. We will move to story writing (in the style of JK herself) and finally, an explanation text centering around the weird and wonderful creatures who populate the Potter Universe. On March 3<sup>rd</sup> 2015 we are visiting Harry Potter World :Warner Bros Studios.

### Numeracy

Exciting times lie ahead as children will be focusing on Geometry as the first unit of this term. Here they will practise rotation, tessellation and translation. This will be followed by fractions , mental and written calculations with two step and three step word problems to finish.

*WELCOME TO THE SPRING TERM! (YEAR 5)*

*OUR SIGNIFICANT AUTHOR FOR THIS TERM IS J.K ROWLING*

### Music/Art

Year 5 have the opportunity to learn to play the flute this Spring. These lessons are provided by a specialist Teacher and the children have already enjoyed playing and maintaining the instruments. Our artistic studies are all around water colour paintings. These will focus on natural landscapes.

### Geography

The Oceans of the World are our destination for Geography this term. We will be looking not only at the names but the characteristics and linking it to our Science Topic.

### Physical Education

Indoor P.E will involve gymnastics. The focus will be on performance involve simple balances and music. This will be broken up with invasion games on the field/playground
