

This is our new digraph **sh**. Remember that a digraph has 2 letters that make 1 sound. The action to go with **sh** is finger on lips.

Don't forget that the **sh** sound is still a short one.

	<u>sh</u> ip
	<u>sh</u> ed
	fi <u>sh</u>
	<u>sh</u> op
	<u>sh</u> ell
	ra <u>sh</u>
	<u>sh</u> ut
	ma <u>sh</u>

When we are blending

sh -o -p

shop

m-a-sh

mash

When the children are reading, they need to see the digraph in the word so that they don't try to blend 4 separate sounds i.e. s-h-o-p.

I have underlined the **sh** in each word to support.
