

Monday 11<sup>th</sup> January 2021

Hello again Year 3!

One week of home learning done already, time for week 2! This week we will continue our topic work by researching the human body and begin planning and writing our explanation texts. This week I would like you to research and investigate the skeleton and muscles using the internet or resources at home, there are also some great TV and YouTube videos available. I will include non-fiction texts here to help with this. Please remember to practise your spellings and times tables, ready for our quiz on Friday.

In maths we will be focussing on money for the week. If possible, it would be ideal for you to see real coins adults might have at home to get to know the different values.

Parents please tweak this learning as needed to suit you and your child. I do appreciate this is a strange time, and we are all in different circumstances. Feel free to adapt this pack as needed, find activities at home relevant to the topics, copy questions out into workbooks/ paper at home or print this document if you can. There are also paper packs available at school. Please email/ contact me if you have any questions. Have a great week!

Miss Baker
