

Our new sounds today are **V** and **W**.

Can you see the vulture?

(If you don't know what a vulture is, maybe you could Google it!)

When we write **V**, we say

Down a wing, up a wing.

(It should come to a point at the bottom, even though it looks more rounded on the card.)

Can you see the worm?

When we write **W**, we say

Down, up, down, up the wiggly worm.

(Again they should come to points at the bottom.)
