

Rap up Warm in Winter

You have to wrap up, you need a scarf, gloves and hat,
You have to rap it up, in winter that's that.

When winter comes round, now you've been told,
You need to wear a coat, when it gets cold.

You need to wrap up, when it is dull.

Wear a thick scarf, made of wool.

You can keep warm, you can do it with ease,

You have to keep warm or you will freeze.

You have to wrap up, you need a scarf, gloves and hat,

You have to rap it up, in winter that's that.

Keep those fingers toasty, it's easy to do,

Find a pair of gloves that are right for you.

They come in many colours, patterned and plain,

Your fingers will thank you, they won't be in pain.

Rap up Warm in Winter

With a coat, scarf and gloves you won't feel the chill.

Without this winter clothing, you might get ill.

You have to wrap up, you need a scarf, gloves and hat,

You have to rap it up, in winter that's that.

Keep your head warm with a decent hat,
Fur-lined or woolly, you can't argue with that.

When icy winds blow your ears turn red,
So keep them under wraps, they'll be warm instead.

Say this rap in winter when you go out,
You'll know how to keep warm, there is no doubt.

You have to wrap up, you need a scarf, gloves and hat,

You have to rap it up, in winter that's that.
