

How to Plant a Sunflower

For beautiful yellow sunflowers, follow these steps.

You will need...

A pot

Soil

Two sunflower seeds

A watering can

A name label

Follow these instructions to plant your sunflower:

- 1) First, fill the pot carefully to the top with some soil.
- 2) Using the watering can, dampen the soil with a little water.
- 3) Now place two sunflower seeds onto the soil.
- 4) Next, cover the seeds with evenly some more soil.
- 5) Finally, pour a little more water gradually onto the soil.

Remember to water your sunflower once a day to help it grow! You will start to see the sunflower growing within two or three weeks.
