English

WALT: identify rhyming words to use in a poem.

Today we are going to start planning a poem that we will write tomorrow. The first thing we need to do is get together a collection of rhyming words. Our poem is going to be about Spring so I've given you some words that are to do with Spring. Your job is to think of a few words to rhyme with each word. One or two for each word should be plenty. I've put two words under 'Spring' to get you started.

Spring	Sun	Day	Trees
fling sing			

We are revisiting 3D shapes today. Visit the following website to refresh your memory: <https://www.bbc.co.uk/bitesize/topics/zjv39j6/articles/zgqpk2p> and then complete the task.

3D Shape Properties Table

Look carefully at the properties of these 3D shapes. Write your results in the table.

3D Shape	Number of Straight Edges	Number of Curved Edges	Number of Vertices	Does it roll?	Does it Stack?
 <p>Cube</p>					
 <p>Cylinder</p>					
 <p>Sphere</p>					
 <p>Cuboid</p>					
 <p>Cone</p>					
 <p>Square-Based Pyramid</p>					

What do your results tell you about the shapes? _____

SPaG

Spot the question. Read each sentence carefully and then decide which ones are the questions and need a question mark at the end.

1. Do you like chocolate
2. I am going to the cinema today
3. Today is Tuesday and tomorrow is Wednesday
4. What is the time
5. How do you do that
6. When it's quarter past three, the children go home from school

Phonics

Practise reading and spelling these 'ie' words

ie = 'ee' sound

alien

chief

movie

field

shield

thief

believe

Cover up each word one at a time and then write it below.

Art

WALT: use colours to create a collage.

Have a look at the picture of a flower. It has been made using a mix of papers torn from magazines in different colours. I thought you could have a go at making your own. You can either use the same idea and have the petals in different colours, or choose one colour.
