Maths

WALT: solve word problems involving multiplication and division.

We are going to put everything together that we have done this week about multiplication and division to work out the answers to word problems. Remember to work out which part of the word problem is important, do you have to multiply or divide to find the answer? Also make sure you write the number sentences using either  $\times$  or  $\div$ .

|  |   |
|--|---|
| I have three 5p coins in my purse. How much money do I have altogether?  | I have 50p. All my coins are 10ps. How many coins do I have altogether?   |
| In a relay race, 4 children swim 2 lengths each. How many lengths are swum altogether?                           | I look after 5 dogs. I have 30 biscuits to share equally between them. How many biscuits can I give each dog?                               |
| 4 groups of children go on a school trip. There are 10 children in each group. How many children go on the trip? | Adults can take 5 children each to the cinema in their cars. If 40 children are going to the cinema, how many cars are needed to take them? |
| I buy 6 bottles of lemonade. If there are 2 litres in each bottle, how many litres of lemonade have I bought?    | I plant my onions in 6 rows and put 10 onions in each row. How many onions do I plant?  |
| I plant 80 carrots. 10 in each row. How many rows of carrots do I plant?   | I bake 50 buns. If I put 5 in each bag for my school cake stall, how many bags will I fill?   |
