WALT: recognise the alternative pronunciation of the sound 'i'

Read the sentences that feature words with the 'i' grapheme and write all of these 'i' words under the correct heading in the table.

Can you find the wild tiger?
The kind man gave me some milk.
The child ate a biscuit from the tin.
Put your rubbish in the bin.
Does a shark have a fin?
The dog helped the blind lady.

mind	tin
e.g. find	tin

For those of you who would like an extra challenge- have a look in a reading book at home. Can you find a word that makes the usual 'i' sound as in tin and another word featuring the alternative 'i' sound as in mind?
